MACKERS

Create your own magic wand!

Use this page as a guide to create your very own wand so that you can start making magic of your own! To make your wand extra special decorate it with your favourite colours and shapes.

When you're finished colouring it's time to make! So, cut along the dashed lines (ask a grown up to help you with this part as it can be tricky!). Then once you've finished cutting roll the wand so your colouring is on the outside, and fix it with a gluestick or some stickytape. Then finally stick your star on the end and say the magic words "Abra Kadabra Genie Mackers!".
